THE NEW COLLEGE

BSc in Physics
May 2019 | CGPA : 7.12 / 10.0

KUMARARAJAH MUTHIAH HR SEC SCHOOL

Computer Science
May 2013 | Cum Per : 65.34

PROFILE

As an enthusiastic and evolving front-end developer. I am actively seeking opportunities to contribute my skills and creativity to a collaborative development team. I am particularly interested in joining a team where I can leverage my current project experience to craft intuitive and visually appealing user interfaces while continuously expanding my skill set in the field of front-end development with a strong foundation in **REACT** and **JAVASCRIPT**

WORK EXPERIENCE

COGNIZANT TECHNOLOGY SOLUTIONS

Process Executive - Data   **2021-2023**

- AS400 & JDE is the tool used to process PO and Non PO invoices.
- Processing critical invoices within the Turnaround time.
- Monitoring Mailbox and handling Escalation Emails.
- Knowledge sharing with the team and training new associates for the process.
- Invoice keying and invoice research activities to update on the payment status to vendor.
- Handling P-card activities to update on the payment status to vendor.
- Handling different type of multibills for the vendor.

PROJECTS

CRYPTOVERSE   [Live Link]
React JS | Redux Toolkit | Ant Design | Chart JS | Rapid API

- My cryptoverse website provides in-depth data about all the cryptocurrencies, crypto markets and exchanges.
- Shows popular crypto currency news from the APIs.
- Created user interfaces using Ant Design and created charts using Chart JS.
- It's a responsive webapp works well in all screen sizes.

FLIPKART CLONE   [Live Link]
React JS | Redux | React Router | Supabase

- It's a Flipkart clone website I have cloned the basic design and feature like add to cart.
- This website also has signup and login features. For email authentication I am using Supabase it's alternative to firebase.
- For navigation I am using React Router.

FIT CLUB GYM WEBSITE   [Live Link]
React JS | React Router | Email JS

- This project is a static website for the Gym.
- User can get the details of the gym, such as about the gym, contact details, address, images etc.
- Here, I am using Email JS for sending automated emails to the clients.
